01 PROFILE

UX engineer and designer for accessible health, wellness and endurance products — a domain I have lived for 25+ years as a swimming and triathlon coach. Google UX certified. I design and build: research, IA, tokenized design systems, WCAG 2.2 AA accessibility, and interfaces I ship in React / Next.js. 20+ years of frontline support shape how I design for real constraints — fatigue, glare, low digital confidence.
